Getting to know your phone

Power key

- Press and hold to power on, select phone modes, turn flight mode on/off or power off.
- Press to turn the screen display on or off.

Home key

- Touch to return to the home screen from any application or screen.
- Touch and hold to activate the search application.

Menu key

- Touch to get the options for the current screen.
- Touch and hold to see recently used applications.

Back key

Touch to go to the previous screen.

Volume up/Volume down

Press or hold to turn the volume up or down.

Starting up

Switch off your phone before installing or replacing the battery or the SIM card. The microSD card is optional and can be installed and removed while the phone is turned on. Unmount the microSD card before removing it.

1. Place your finger in the slot at the bottom of the back cover to lift and remove the cover.

2. Hold the SIM card with its cut corner oriented as shown and slip it into the card holder.

3. Hold your microSD card with the metal contacts facing down and slide it into the microSD card slot.

NOTE: Your phone may come with a pre-installed microSD card. Some applications may not function normally after you remove the card.

4. Align the connectors on the phone and the battery and slide the battery into the compartment. Then gently press the battery down until it is secured.

5. Press the cover gently back into place until you hear a click.

Charging the battery

1. Connect the adapter to the charging jack. Ensure that the adapter is inserted with the correct orientation. Do not force the connector into the charging jack.

2. Connect the charger to a standard AC power outlet.
3. Disconnect the charger when the battery is fully charged.

Powering your phone on/off

Make sure the battery is charged before powering on.

- Press and hold the **Power Key** to turn on your phone.
- To turn it off, press and hold the **Power Key** to open the options menu. Touch **Power off > OK**.

Product safety information

	Do not use hand-held while driving
	Do not use while refuelling
	For body-worn operation, maintain a separation of 15 mm
	This device may produce a bright or flashing light
	Small parts may cause a choking hazard
	Do not dispose of it in a fire
	This device may produce a loud sound
	To prevent possible hearing damage, do not listen at high volume levels for long periods
	Avoid contact with magnetic media
	Avoid extreme temperatures
	Keep away from pacemakers and other personal medical devices
	Avoid any contact with liquid; keep it dry
	Switch off when instructed in hospitals and medical facilities
	Do not attempt to disassemble

⚠	Switch off when instructed on aircraft and in airports
⚠	Only use approved accessories
⚠	Switch off in explosive environments
⚠	Do not rely on this device for emergency communications

Disposal of your old appliance

[crossed-out wheeled bin symbol]	1. When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by European Directive 2012/19/EU.
	2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or local authorities.
	3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.

For recycling information for this product based on the WEEE directive, please send an email to weee@zte.com.cn

SAR

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organisation ICNIRP and include safety margins designed to ensure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested was 1.16 W/kg. As mobile devices offer a range of functions, they can be used in other positions, such as on the body.

As SAR is measured using the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

EC DECLARATION OF CONFORMITY $C \in 1588$

It is hereby declared that following designated product:

Product Type: UMTS/GSM(GPRS) Digital Mobile Phone

Model No: ZTE Blade Q Mini/Blade Q Mini

Product Description: UMTS/GSM Mobile Phone

Complies with the essential protection requirements of Directives on Radio and Telecommunication Terminal Equipment (Directive 1999/5/EC), Restriction of the Certain Hazardous Substances in electrical and electronic equipment (Directive 2011/65/EU), Eco-design Requirements for Energy-Related Products (Directive 2009/125/EC) and their amendments.

This declaration applies to all specimens manufactured identical to the samples submitted for testing/evaluation.

Assessment of compliance of the product with the requirements relating to Directive 1999/5/EC was performed by American TCB (Notified Body No.1588) and assessment of compliance of the product with the requirements relating to Directive 2011/65/EU was performed by Centre Testing International Corporation SHANGHAI LAB and Directive 2009/125/EC was performed by EST Technology Co., Ltd. The assessments were based on the following regulations and standards:

Requirement	Standard
Health and safety	EN 50360:2001; EN 62311:2008; EN 62479-2010; EN 62209-1:2006; EN 62209-2:2010; EN 50332-1:2000; EN 50332-2:2003
	EN 60950-1: 2006+A11: 2009+A1: 2010+A12:2011
EMC	EN 301 489-1 V1.9.2; EN 301 489-3 V1.4.1; EN 301 489-7 V1.3.1; EN 301 489-17 V2.1.1; EN 301 489-24 V1.5.1; EN 55013:2001+A2: 2006; EN 55020: 2007+A11:2011
Radio Spectrum	EN 301 511 V9.0.2; EN 301 908-1 V5.2.1; EN 301 908-2 V5.2.1; EN 301 908-13 V5.2.1; EN 300 440-1 V1.6.1: EN 300 440-2 V1.4.1; EN 300 328 V1.7.1;
RoHS	IEC 62321:2008
ErP	(EC) No 278/2009
