Safety Information

This section contains important information on safe and efficient operation. Please read this information before using the device.

- Use only the batteries and power adapter provided by the manufacturer. Use of unauthorized accessories may void your warranty.
- Do not remove the battery while the phone is charging.
- Avoid using the phone near electromagnetic sources such as TVs, radios, and microwave ovens.
- Unplug the power adapter from the wall outlet during lightning storms to avoid electric shock or fire.
- Do not expose the phone or the battery to direct sunlight.
- Do not store your phone in temperatures higher than 60°C or 140°F.
- Do not use harsh chemicals or detergents to clean your phone.
- Do not handle the phone with wet hands while it is being charged. This may cause an electric shock or serious damage to the phone.

SAFETY PRECAUTIONS FOR BATTERY USE

- Use only approved battery.
- Keep the battery dry and away from any liquid since this may cause a short circuit.
- Keep the battery away from metal objects since this may cause a short circuit.
- Do not use damaged or deformed batteries.
- If the battery emits a foul odor, discontinue use.
- Keep the battery away from babies and small children.
- If the battery leaks:
 - Do not allow the leaking fluid to come in contact with your skin, eyes or clothing. If already in contact, rinse with clean water immediately and seek medical advice.
 - Keep the battery away from fire since this may cause the battery to explode.
 - Do not attempt to open or service the battery yourself.
 - Do not dispose battery in fire or water.
 - Recycle or dispose used batteries according to the local regulations.
- Prevent to place the battery in extreme temperature condition, it maybe influence the battery efficiency.

ROAD AND ENVIRONMENTAL SAFETY

- Turn off the phone in areas with a potentially explosive atmosphere or where flammable objects exist such as gas stations, fuel depots, and chemical plants among others. Sparks from these areas could cause explosion or fire and result in injury or even death.
- Do not use hand-held phones while driving a vehicle. Use hands-free devices as an alternative.

SAFETY IN AIRCRAFT

Do not use the phone on board an aircraft. The phone's network signals may cause interference to the navigation system. As a safety measurement, it is against the law in most countries to use the phone on board an aircraft.

CE SAR Compliance

This device meets the EU requirements (1999/519/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

The limits are part of extensive recommendations for the protection of the general public. These recommendations have been developed and checked by independent scientific organizations through regular and thorough evaluations of scientific studies. The unit of measurement for the European Council's recommended limit for mobile devices is the "Specific Absorption Rate" (SAR), and the SAR limit is 2.0 W/ kg averaged over 10 gram of body tissue. It meets the requirements of the International Commission on Non-Ionizing Radiation Protection (ICNIRP).

For body worn operation, this device has been tested and meets the ICNIRP exposure guidelines and the European Standard EN 62311 and EN 62209-2, for use with dedicated accessories. Use of other accessories which contain metals may not ensure compliance with ICNIRP exposure guidelines.

SAR is measured with the device at a separation of 1.5 cm to the body, while transmitting at the highest certified output power level in all frequency bands of the mobile device. The maximum SAR of the device is 0.352 W/Kg.

WEEE Notice

The WEEE logo on the product or on its box indicates that this product must not be disposed of or dumped with your other household waste. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste. Isolated collection and proper recovery of your electronic and electrical waste equipment at the time of disposal will allow us to help conserve natural resources. Moreover, proper recycling of the electronic and electrical waste equipment will ensure safety of human health and environment. For more information about electronic and electrical waste equipment disposal, recovery, and collection points, please contact your local city center, household waste disposal service, shop from where you purchased the equipment, or manufacturer of the equipment.

RoHS Compliance

This product is in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003, on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) and its amendments.

European Union Regulatory Conformance

The equipment complies with the RF Exposure Requirement 1999/519/EC, Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0–300 GHz). Changes or modifications to this product not authorized by the manufacturer could void the EMC compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is

Gsmart

important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices. We, hereby, declare that this cellular, Wi-Fi, & Bluetooth radio is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Products with CE marking comply with the EMC Directive (2004/108/EC) and the Low Voltage Directive (2006/95/EC) issued by the Commission of the European Community. Compliance with these directives implies conformity to the following European Norms (in parentheses are the equivalent international standards).

Intellectual Property Right Information

Right to all technologies and products that comprise this device are the property of their respective owners:

This product has an Android platform based on Linux, which can be expanded by a variety of Java-Script-based application SW. Google, the Google logo, Android, the Android logo, Gmail, and YouTube are trademarks of Google Inc. Bluetooth and the Bluetooth logo are trademarks owned by Bluetooth SIG, Inc. Wi-Fi, the Wi-Fi CERTIFIED log, and the Wi-Fi logo are registered trademarks of the Wireless Fidelity Alliance.

Java, JME and all other Java-based marks are trademarks or registered trademarks of Sun Microsystems, Inc. in the United States and other countries. microSD is a trademark of SD Card Association.

Products with 2.4–GHz Wireless LAN Devices France

L'utilisation de cet equipement (2.4GHz wireless LAN) est soumise à certaines restrictions: cet equipement peut être utilisé à l'interieur d'un batiment en utilisant toutes les frequences de 2400 a 2483.5MHz (Chaine 1–13). Pour une utilisation en environement exterieur, les frequences comprises entre 2400-2454 MHz peuvent être utilisé. Pour les dernières restrictions, voir http://www.art-telecom.fr.

For 2.4–GHz wireless LAN operation of this product, certain restrictions apply. This equipment may use the entire–2400–MHz to 2483.5–MHz frequency band (channels 1 through 13) for indoor applications. For outdoor use, only 2400-2454 MHz frequency band may be used. For the latest requirements, see http://www.art-telecom.fr.

Sound Pressure Level requirement

This device have been tested to comply with the Sound Pressure Level requirement laid down in the applicable EN 50332-1and/or EN 50332-2 standards. Permanent hearing loss may occur if earphones or headphones are used at high volume for prolonged periods of time.

Prevention of Hearing Loss Warning statement requirement under EN 60950-1:A12. To prevent possible hearing damage, do not listen at high volume levels for long periods.

Note:

For France, headphones/earphones for this device are compliant with the sound pressure level requirement laid down in the applicable EN 50332-1: 2000 and/or EN50332-2: 2003 standard as required by French Article L.5232-1.

A pleine puissance, l'écoute prolongée du baladeur peut endommager l'audition de l'utilisateur.

ON USE OF TURKISH CHARACTERS IN SHORT MESSAGE SERVICES

This device is in accordance with ETSI TS 123.038 V8.0.0 (or the code of the subsequent version) and ETSI TS 123.040 V8.1.0 (or the code of the subsequent version) technical features that include all the Turkish characters.

General Information

This section contains important information on safe and efficient operation. Please read this information before using the device. Ignorance of the following notices may lead to violations of the law.

- Before using the device, please make sure you have fully charged the battery.
- Do NOT remove the battery from the device during charging.
- Before inserting SIM card into the device, make sure that the device is switched off.
- Do NOT attempt to dissemble the device on your own. This should be done by an authorized person.
- Use the device in accordance to instructions when in public facilities.
- In some countries, it is a violation against the law to record phone conversations. Always ask permission of the other party when you are going to record a conversation.
- To protect your ears, turn down the volume before you use stereo headsets or other audio devices.
- To avoid damaging the touch screen and the device, do NOT apply excessive pressure on them, and remove the device from your pants' pocket before you sit down. It is also recommended that you only use the stylus or your finger to interact with the touch screen. It is not covered by the warranty that you crack the touch screen because of the improper usage.
- When you use the device for a long time, such as talking on the phone, browsing online, or charging the battery, the device may become warm. In most cases, this condition is normal.
- Refer servicing to the provider, or an authorized technician under the following conditions:
 1. The device has been damaged.
 2. When you follow the instructions to use your device, it does not operate normally.
 3. The device has been exposed to water.
 4. Liquid has been spilled or an object has fallen onto the device.
- Do Not push unauthorized objects into slots and openings in your device.
- The device should be placed away from heat sources such as stoves, radiators, heat registers, or other products that produce heat.
- Condensation may form on or within your device, when you move your device between environments with very different temperature and/or humidity ranges. To avoid damaging your device, make the moisture to evaporate before you use the device.
- To avoid damaging your device, do Not put your device on an unstable table, stand, bracket, or other places.
- Before you clean your device, unplug it, please. Use a damp cloth for cleaning, but do Not use water, liquid cleaners, or aerosol cleaners to clean the touch screen.

17	MIC	Sound Receiver.

1.2 Installing or uninstalling the SIM Card

To install or remove the SIM card

Locate the small hole next to the SIM card slot. Please use a SIM card eject tool, press the end of the tool into the small hole. The SIM card tray will eject, allowing you to install or remove the SIM card and slide the empty tray back into the phone.

To install the card

1.3 Charging the Battery

When you take your phone out of box for the first time, the battery isn't at full of power. Please charge the battery fully before using.

- 1. Connect the USB cable to the AC adapter, and then, connect to the device via the USB cable.
- 2. Plug the AC adapter to a socket to start the charge.

NOTE:

To ensure safety, do not remove the battery from the phone while the AC adapter is connected or while it is being charged.

1.4 Turning the Phone On or Off

After installing the SIM card and charging the battery, you are now ready to turn your phone on.

To turn on your phone

Press and hold the power button until the phone shortly vibrates.

To turn off your phone

- 1. Press and hold the power button for several seconds.
- 2. A pop-up window appears, then tap "Power off".
- 3. Select "OK" to confirm.

To set your phone to the sleep mode

To set your phone to the sleep mode, press the power button briefly. It will turn the display off. To turn the display on, press the power button briefly again.

Unlock your phone

Slide G icon on screen to any direction for unlocking your phone.

Guru (White Edition) | 1-3

Unlock screen widget

- Swiping your finger to the right anywhere on the lock screen takes you directly to the Camera app.
- Swiping your finger to the right on the main lock screen panel, the screen slides over to reveal a new panel with a large gray plus sign. Tapping the plus sign shows you a list of available widgets you can add.
- Long-press any widget to move it from one panel to another

1.5 Initial Settings

Before initializing your device, please remember to insert your SIM card first. When turning on your phone for the first time or resetting your phone, you need to follow the steps on the screen.

NOTE:

Some applications and functions needed to connect to the Internet such as location-based services and the automatic synchronization of your online accounts may incur the fees of the connection from your service provider. You may enable or disable the Internet later.

1.6 Using Headset

For hands-free conversation or listening to music, plug a headset into the headset jack.

NOTE:

- When using a headset, your ability to hear outside sounds may be limited. Do not use the headset if it will endanger you.
- Do not set the volume to its maximum with a headset as it may damage your hearing.

The following instructions are only provided with the original headset of the original manufacturer:

Types	Descriptions
Play/ Pause/ Next control	 Press the button to play and press again to pause music. Long press to back to "Songs".
Call control	 When you are having an incoming call, quick press to answer the phone; otherwise, long press to end the call. When you are talking the phone, press the button to mute, and press again to un-mute. When you are talking the phone, long press to end the call.

1.7 Adjusting the Volume

To adjust the volume of ringtone and alarm

- 1. Tap Application Drawer > APPS tab > Audio profiles.
- 2. Select the "General" mode into the settings screen.

- 3. On the settings screen, tap "Volumes".
- 4. Slide the volume bar to adjust each volume. Tap "OK" to save your settings.

To mute the volume of ringtone

- 1. Tap Application Drawer > APPS tab > 🧾 > Audio profiles.
- 2. Select the "Silent" mode to set the phone to mute.

NOTE:

When the phone is set to the silent mode, all sounds are turned off except media and alarm.

1.8 People

"People" is your phonebook that lets you store friends' names, phone numbers, e-mail addresses and other information."People" can connect to your Google, Corporate accounts, and integrate your contacts information.

Adding a new Contact

- 1. Tap Application Drawer > APPS tab > 📃
- 2. Tap 2 > tap + to add a new contact.
- 3. Choose where you want to store the new contact to.
- 4. A new contact screen appears.
- 5. Tap each field to fill out the contact information.

NOTE:

- You can't add pictures to contact information from the SIM card.
- How to add the extension number: Input the phone number. Tap Menu > "Add 2-sec pause", and the [,] symbol will be show up. Then input the extension number.

Editing a contact's information

- 1. Tap Application Drawer > APPS tab > 🖳
- 2. On \blacksquare tab, tap the contact you want to edit.
- 3. Tap Menu > Edit.
- 4. Enter the new information.
- 5. Tap "DONE" to save it.

Block incoming calls

- 1. Tap Application Drawer > APPS tab > 📃
- 2. On is tab, tap the contact you want to edit.
- 3. Tap Menu > Select "Block incoming calls".

Delete your Contacts

- 1. Tap Application Drawer > APPS tab > 📃
- 2. On 🚨 tab, tap the contact you want to delete.
- 3. Tap Menu > Delete

4. Tap "OK" to delete the contact.

Searching for Contacts

On People Screen, please follow the step to easily search for contacts as below:

- 1. Tap 🔍
- 2. Type the first few letters of the contact name to search. The list is filtered when typing.

When finish searching, you could tap X to go back to the contacts screen.

To add Contact groups

- 1. Tap Application Drawer > APPS tab > 일
- 2. Tap 😤 tab.
- 3. Tap 😤 to add a new group. Then, select one of accounts to create group.
- 4. Enter the new group name.
- 5. Type person's name to add members. Members of the group are displayed below.
- 6. Tap "DONE" to finish settings.

Manage Accounts

- 1. Tap Application Drawer > APPS tab > 🖳
- 2. Tap Menu > Accounts.
- 3. You could select "Auto-sync app data". If so, Applications can sync, send, and receive data automatically.

Import / Export Contacts

- 1. Tap Application Drawer > APPS tab > 🖳
- 2. Tap Menu > Import/export.
- 3. Choose where you want to copy the contact from.
- 4. Choose where you want to store the contact to.
- 5. Select contacts you want or select all contacts. Then copy the contacts.

Add to Favorites

- 1. Tap Application Drawer > APPS tab > 📃
- 2. On \blacksquare tab, tap the desired contact into the information screen.
- 3. Tap icon \overleftrightarrow to add to Favorites.
- 4. When you tap \overleftrightarrow tab on the Contacts screen, you will find the contact in the favorite list.

Remove from Favorites

- 1. Tap Application Drawer > APPS tab > 📃
- 2. Tap \overleftrightarrow tab, the favorite contacts are displayed.
- 3. Tap the desired contact into the information screen.
- 4. Tap icon \overleftrightarrow to remove it from Favorites.

1.9 The Home Screen
