### **Chemical Warning**

Do not use your mobile phone around fuels or chemicals.

### **Temperature Warning**

Do not subject your phone to extreme temperature conditions.

### **Water Hazard**

Your phone is not waterproof. Keep your phone away from water or liquid to avoid damage.

### **Emergency Calls**

Make sure your mobile phone is switched on and in a service area. In home screen, tap the phone key and dial the emergency number.

### **Accessories and Batteries**

Use only Blu authorized batteries and accessories.

### **Information Backup**

Remember to keep a written record of important information.

### **Battery Safety and Precautions**

- For better performance and longer battery life, it is recommended that you charge the battery fully before using the mobile phone for the first time.
- The optimum performance of a new battery is typically achieved after two or three complete charge cycles. **Note:** Keep in mind that continuous overcharging will affect long-term battery life.
- While charging, keep the mobile phone out the reach of children.
- Store the battery in a cool and dry place away from direct sunlight and water.
- Do not expose batteries to extreme temperatures (below -8°C (18°F) or above 43°C (110°F)).
- Immediately stop using the battery if it produces an odor, cracks and leaks, overheats, distorts or has any other type of physical damage.

- Avoid using the charger near or around liquids. If the charger is exposed to water or any liquids, immediately unplug it from the outlet to reduce the risk of overheating, charger malfunction, electric shock or fire.
